Mr. Scott Leonard  
5136 South 108th Street  
Hales Corners WI 53130

Dear Scott:

We have just finished our first production in the theatre with our newly installed sound system, and I wanted to write to thank you and your associates for the excellent work. Many of our theatergoers commented on the vast improvement in the quality of the sound in the theatre, and how much they enjoyed the production because of it.

We are still in the process of learning what the system is capable of, but we are all very pleased with the installation and all the help that you have given us in getting us up and running. Thanks again for all your efforts. I will certainly recommend you to anyone interested in a sound installation.

Sincerely,

Loren M. Sass
