Dear Scott and Kim,

I would like to take this opportunity to thank you for your services in outfitting our new auditorium, cafeteria, and conference rooms with top quality audio and video equipment. We particularly value the individual treatment that our needs were given and the way you interfaced with the building design and construction process. In addition, we appreciate the way you incorporated our video needs into the package you delivered.

The systems were put to immediate and thorough use by our staff as soon as our expanded facility opened last fall. They have proven to be in asset in our business and have performed admirably.

Thanks again,
