

## ENDERIS – MERRILL HALLS – UW MILWAUKEE

These AV systems were done for three classrooms at the University of Wisconsin Milwaukee Campus. Each system includes a document camera, a DVD player, a video camera for recording / video conferencing, multiple computer inputs and an input from the campus cable system. Each system feeds multiple video projectors, a recording VCR, a control window in the touchscreen, and audio recorder, a CART captioning system, and the campus cable system. Each system incorporates integrated touchscreen control of the sound, video, lighting, and slide projectors.
